## ITCS210-Prac-Week2: HTML Part 1

---

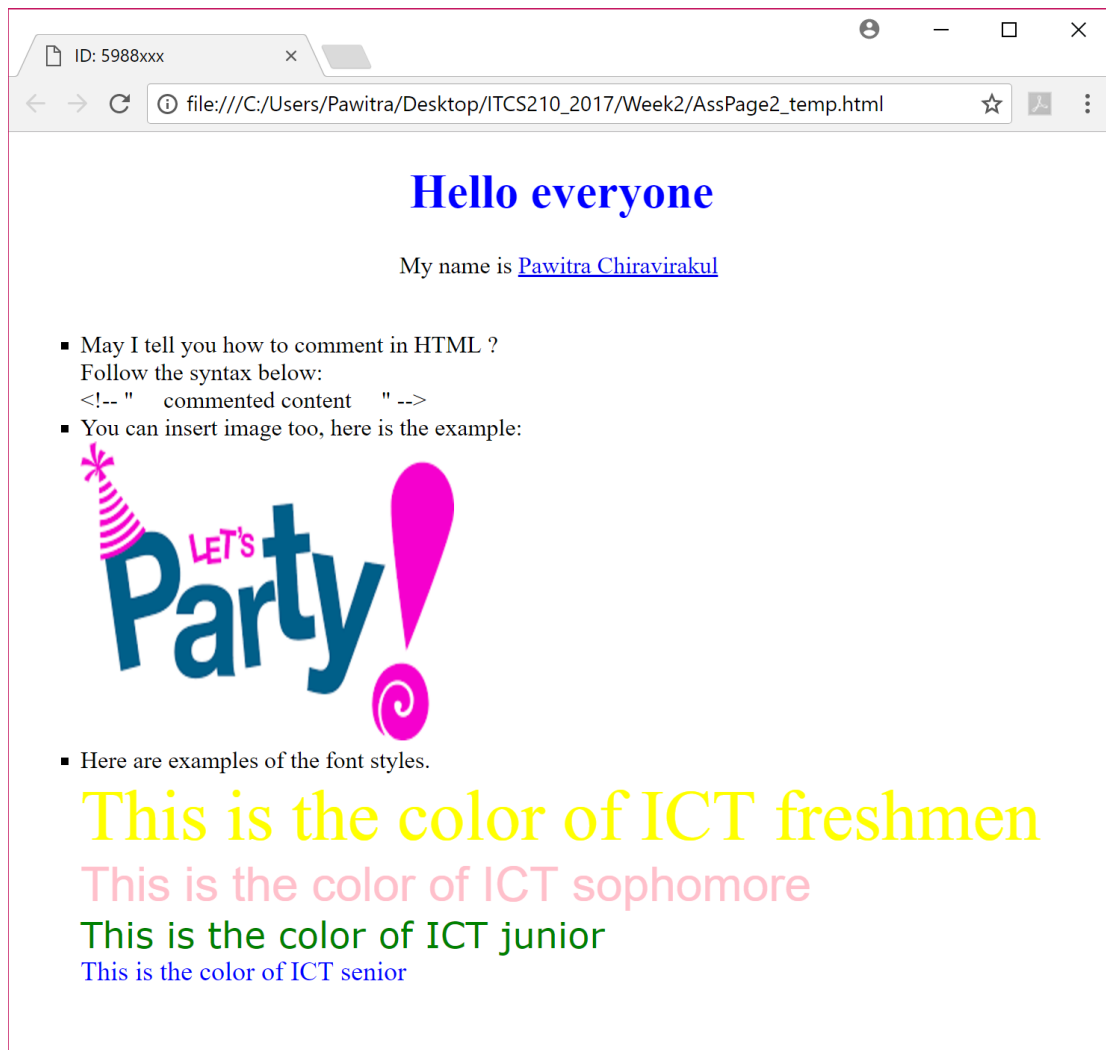

### Instructions

There are 3 activities to be done. For each activity, you have to submit the html files for each activity on <http://Mycourses.ict.mahidol.ac.th>.

**Activity 1:** Create an html page that displays information below with your id, first name and last name.

**Activity 2:** Create an html page that displays information below with your id, first name and last name. You can use any image and colours of your choice. Your name should be linked to the web page in Activity 1. The width and height for an image displayed is 250px\*200px.

**Activity 3:** Create an html page that displays information in a table using colspan and rowspan. You can select your own favourite animals and add their characteristics in the table. Feel free to change the colour but the format will have to be the same as the example. The width and height for all image displayed is 200px\*150px.

A list of my favourite animals			
	Camel		
	Large feet	Hump	Long eyelashes
	Bear		
	Powerful claws	Cinnamon color	Cute
	Robin		
	Orange pattern	Lovely sound	fluffy
